

International Week on Sustainability 2022

The HWR Berlin organized the International Week on Sustainability for the fourth time from 04-12 and 18-21 November 2022, this year with the focus on »Climate Change and Democracy«.

05.12.2022

Impressions of the workshop

The Berlin International Week was launched in 2019 with the aim of integrating sustainability and responsibility aspects more strongly into the curriculum of degree programmes. It opens up multidisciplinary perspectives on the topics of sustainability and responsibility. Each year, the project week carries a new focus. The approach is always interdisciplinary and international.
